

**PROGRAMMING
ACTIVITY**

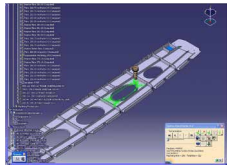

Our programming department offers In and Ex-Situ services in order to ensure your parts industrialization on 3 - 5 axis machines and parts programming.

2D/3D parts

**Simulation
Programming**

**Demonstration
Integration**

Our services

- NC expertise (standard and HSM)
- CAM programming
- Machining simulation
- Post processor
- Process analysis
- Onsite assistance
- Fixture machining programming

Our means

- CATIA V5 - V6
- CADD5
- WORK NC
- VERICUT
- NCSIMUL
- GPOST
- TOPSOLID

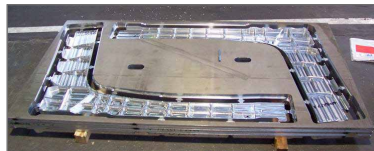

Our references

AIRBUS - STelia - DASSAULT AVIATION - DCNS - DAHER - CCA - MÉCACHROME- SONACA - RATIER FIGEAC - ALSTOM...

OUR REALISATIONS

5 axis face

5 axis frame

5 axis metal hinge

Composite clips

High dimensions parts programming

Composite crankset
